

Dementia Caregiver Resources Directory

Spousal Caregiver Resources

Hello Caregiver Study Participants,

The Alzheimer's Foundation of America (AFA) thanks you for participating in our research study: The Biopsychosocial Impact of Dementia Caregiving on Spousal Caregivers. We are providing you with a comprehensive national resource list for Alzheimer's disease and related dementias (ADRD) aimed at spousal and long-term caregivers. This list is comprised of resources that may help caregivers in the U.S. navigate the challenges of caring for someone with Alzheimer's or other dementias.

*** Please be advised that there are PHQ-9 questions in this survey. If you or someone you know is struggling or in crisis, help is available. If responses to Question 9 (Thoughts of self-harm) indicate risk, immediate clinical evaluation is required.
